

CONSTANTINOPLE ASSAILED, LAND AND SEA

Important Operations Now in Three Fields of Action

NEW GOLD STRIKE THAT PROMISES BIG THINGS MADE 18 MILES FROM TONOPAH

A new discovery, startling in its assay values, has been made eighteen miles northerly from Tonopah and there is a rush on to the new diggings. The find was made nearly a week ago, but it was kept a secret as long as possible, last evening being the first time that general knowledge was received of the discovery. And then the rush began. One after another the cars streamed out of Tonopah and then they began to come from Goldfield. Midnight locations were made and this forenoon the greater number of visitors to the find returned, as there are no accommodations there to enable them to remain.

The find was made at Volcano. W. A. Lynch, chief mechanic for the West End company, describes it as follows, and he, outside of the original locators, is probably the best informed of all who have visited the place. Mr. Lynch returned this forenoon with a bag of extremely inviting samples. He said:

"I have known of the find for nearly a week and have made several trips there and am extremely pleased with the ground which I have secured. My assays run from ordinary shipping grade up to \$6290, of which latter 290 ounces was gold. The dirt that is an infilling of the formation runs enough to frighten a person. The gold, however, is of rather poor quality on account of the amount of silver it contains. There appears to be no base metal of consequence in the ore. The matrix is a black quartz and the gold is not in nuggets, but is finely divided and shot uniformly through the quartz, which is almost like jewelry.

"The vein appeared at first to be a blowout, but at five feet, the greatest depth attained in the trenching, it is well gouged, lying between walls of altered rhyolite. The trend is northwesterly and southeasterly, with an easterly dip. The vein does not follow the formation of the country,

but appears to be a cross ledge. The discovery was made 400 feet from the shaft where George Wingfield had an option some time ago and where he did considerable work. On the surface the cross vein is only a couple of inches wide, but it has grown to more than a foot and, while broken, I believe it is permanent."

Other arrivals from the camp report that Messrs. Charles Glenn, John Musser and Bill Ellis, the original discoverers, have already nearly a ton of the choicest rock, the values of which may be reckoned by the pound, sacked and locked in their cabin. It is reported that 22 automobile loads of Tonopah people visited the property during the night and this morning, while a number rushed out from Goldfield and other points. The country has been staked for miles. The district is in the forest reserve, but is not timbered. The nearest water is two miles away at Cedar Corral. The automobile road is good clear to the property, except for a short distance in the wash, where the recent cloudburst did considerable furrowing. The place may be reached by following the Manhattan road for seven miles and at the fork turning toward the right. Neither Hannaph nor McKinney's tanks are on the course. The recently made auto tracks are said to be sufficient guidance to any who are unfamiliar with the topography of the country. Johnny Musser is reputed to be the actual discoverer of the ledge. One of his partners, Glenn, has been prospecting in the region for the past seven years.

Al Frevort and William Ellis, who left for the find Monday afternoon, were the first to bring news of the strike to Tonopah, when they returned yesterday afternoon. They located the extension to the original location and have already given an option on their holding to a reliable reduction company. The ore will run 350 ounces of gold and 1450 ounces silver.

H. H. BACON SUED FOR BIG DAMAGES

AUTO ACCIDENT AFTERMATH APPEARS IN DISTRICT COURT

A suit to recover \$9,300 was filed in the district court today by H. R. Cooke, as attorney for S. J. Tanner and Henrietta Tanner, against H. H. Bacon. The action grows out of an accident on Main street at the intersection of Brougher avenue, on December 2, 1914, when Bacon ran down Mrs. Tanner with his automobile. At the time of the accident it was dark and a wind and dust storm was on. Mrs. Tanner was crossing Main street and when near the middle of the street was struck by the Bacon machine as it was coming into Brougher avenue. The complaint alleges that Bacon was driving at an improper and unreasonable rate of speed for such a place where pedestrians were constantly passing and crossing, that no horn or warning signal was employed. Mrs. Tanner suffered severe injuries, one leg being broken and the ankle joint wrenched and the cartilaginous structure of the left knee torn and mangled, in consequence of which she has been confined to her bed and at home ever since, and the complaint alleges she is permanently crippled. The total damages are laid at \$10,000, but the plaintiffs admit receiving payment of \$700 from Bacon. A second suit, by Mr. Tanner alone, will probably be commenced shortly, to recover damages accruing to him individually, as a result of the injuries inflicted upon Mrs. Tanner.

L. L. PATRICK was a visitor from Goldfield yesterday, returning this morning.

SUIT IS COMMENCED IN DISTRICT COURT

J. A. COUGHLIN ASKS DAMAGES FROM COTTONWOOD CANYON MINING COMPANY

Suit has been commenced in the district court of Nye county by J. A. Coughlin as plaintiff to recover \$12,000 damages for personal injuries, against the Cottonwood Canyon Mining company, owning a group of valuable mining claims at Stimler, in Esmeralda county. The accident happened on July 13, 1912. The company was sinking a shaft and owing to defective hoisting apparatus, a heavy beam came down the shaft, striking Coughlin and a co-employee, Robert Martin, who were in a bucket descending the shaft. Both men were seriously injured, Martin receiving injuries about the head and neck and Coughlin having his wrist and arm wrenched so that he has become a cripple for life. Martin filed suit some time ago and recovered \$5,000. H. R. Cooke, who acted as attorney for Martin and who is also attorney for Coughlin in the present action, says the ground is very valuable and that the company, in spite of the damage suits pending are proceeding with expensive development work. A writ of attachment was levied on the property.

DECLAMATION CONTEST AT HIGH SCHOOL GYM

It is expected that a large crowd will assemble Friday evening in the high school gymnasium to listen to the declamation contest, which will be a tryout for the state contest to be held later in Reno by the high schools of the state, coincident with

STRUGGLE FOR MASTERY YSER CANAL TERRITORY AS WELL AS CARPATHIANS THE INLET FROM RUSSIA TO HUNGARY

(By Associated Press.)
LONDON, April 28.—Military operations of critical importance are under way simultaneously in three distinct fields of action. In Flanders the Germans again engaged with the allies in the struggle for the mastery of the territory near the Yser canal. In the Carpathians the Russians are assuming the offensive in another of their repeated efforts to push over the mountain barrier into Hungary. At the Dardanelles the allies have succeeded in getting troops on both sides of the straits, and are inaugurating a combined land and sea attempt for the conquest of Constantinople. Paris reports that the French section landed on the Asiatic shore is progressing despite stubborn resistance from the Turks, who are entrenched, supported by artillery. The British are on the European side.

GERMAN FLEET REPORTED IN NORTH SEA

(By Associated Press.)
LONDON, April 28.—Captain Scott, commanding a Norwegian steamer chartered by the Belgian relief commission, reported the presence in the North Sea of a German fleet numbering no less than sixty-eight vessels. He said he was stopped by the Germans, his papers examined, and then allowed to proceed. A new German attack on a large scale has been inaugurated in Russian Poland, marking the resumption of active hostilities after a long lull. Berlin

says that the Germans have conquered Russian positions in the vicinity of Suwalki over a front of twelve miles. There is a disparity between the German and French accounts of the happenings in Flanders. Berlin has reported that the British efforts to recover their lost ground has failed. Paris asserted that further progress has been made in the Ypres district. It is said that heavy losses were inflicted on the Germans, more than 600 bodies having been counted at one point.

ARMORED CRUISER SUNK IN ADRIATIC

PART OF CREW RESCUED—VESSEL COST SIX MILLION DOLLARS

(By Associated Press.)
BERLIN, April 28.—According to the Overseas News Agency, the French armored cruiser Leon Gambetta was torpedoed in the Adriatic by an Austrian submarine. Part of the crew of more than seven hundred were rescued. The vessel was built at Brest in 1903 and cost nearly six million dollars.

REFORM MADE IN RUSSIAN JOURNALISM

ANTI-SEMITIC PUBLICATION IS FINED FOR LIBELING HE-BREW RESIDENTS

(By Associated Press.)
LEIPSIK, April 28.—Theodor Fritzsche, publisher of The Hammer, an anti-semitic periodical which was recently suppressed by the military authorities, has been fined 1200 marks for libel of the Jewish inhabitants of Mulhausen, Alsace. Fritzsche asserted, in an article headed "Hebraic Friends of the French," that the Jews of that city hung out French flags when the French came in, that the daughters of prominent Jewish families had danced in the streets with French officers, and that the champagne had flowed in streams. A rabbi and eight prominent Jews of Mulhausen caused the action to be brought against Fritzsche.

AMERICAN NEWSPAPERMAN ESCAPES DEATH PENALTY

(By Associated Press.)
GALVESTON, April 28.—Philip McCleary, an American newspaperman who was reported to have been sentenced to death by Carranza at Vera Cruz, arrived here today.

the field day contest. Tickets for Friday's event are only 25 cents. The program promises to be well worth the money.

OFFICERS GO DOWN WITH THEIR SHIP

ONLY SMALL PART OF CREW OF LEON GAMBETTA ARE SAVED

(By Associated Press.)
PARIS, April 28.—The Leon Gambetta, while cruising at the entrance of the Otranto canal, was torpedoed and sank in ten minutes. All the officers perished at their posts. One hundred and thirty-six members of the crew were rescued.

CASH BOY MINE IS DRY AS BONE TODAY

The unwatering of the Victor has at last relieved the Tonopah Cash Boy mine of water. The miners were driven from the 1350 crosscut, the bottom level, by water, while penetrating the ledge, and were compelled to do their driving on the level above, the 1200. They were getting a good advancement toward the footwall when the water receded and today they were returned to the bottom crosscut. The unwatering caused an advancement of 1 cent in the selling price of the stock today.

ADVISED TO LEAVE ITALY

(By Associated Press.)
GENOA, April 28.—Several banks have urgently advised their German and Austrian clerks to leave Italy.

HARD UP FOR COPPER

(By Associated Press.)
PARIS, April 28.—German agents are reported to be collecting all the copper coins available throughout the Balkan states and forwarding them to Germany.

COLONEL COULDN'T CONTROL GESTURES

(By Associated Press.)
SYRACUSE, April 28.—Colonel Roosevelt told as a witness in the Barnes libel suit brought against him why, when governor and President, he conferred with Senator Platt, "the boss." While governor, he said, he discussed things with Platt because he had learned that the legislature obeyed his orders. He believed that when there was any likelihood of the legislature disagreeing with him it was best to go to headquarters to discuss the issues. He didn't want to run any chances of disrupting the Republican party. As president he readily admitted he had conferred with the senator from

New York on all manner of questions. He valued Platt's advice and wanted to take advantage of his wide experiences. The statements were made in reply to questions by the colonel's counsel. The redirect examination and cross examination by Barnes' attorney were concluded earlier. The colonel was a most active witness on the stand. He slapped his hands upon his thighs, and moved his arms and head to emphasize his words. He raised his voice and pounded the arm of his chair until counsel for Barnes objected to his "gesticulations." The court replied that the gesticulations of the witness could not be controlled.

GOVERNOR SIGNS AN IMPORTANT MEASURE

NON-PARTISAN ELECTIONS WILL BE HELD IN CALIFORNIA HEREAFTER

(By Associated Press.)
SACRAMENTO, April 28.—Four bills by Young, establishing non-partisan state elections, were today signed by Governor Johnson. They represent the chief legislative wish of the administration, and are regarded as the most important legislation during the session. Under them no candidate for political office in California will carry the party label except candidates for representatives in congress and the United States senator.

HUNDRED WARRANTS HAVE BEEN ISSUED

MANY ARE CHARGED WITH VIOLATING TWO FEDERAL STATUTES

(By Associated Press.)
CHICAGO, April 28.—United States deputy marshals are searching for contractors, electrical fixture men and labor leaders named in sensational indictments by the federal grand jury. They are charged with violating the interstate commerce and anti-trust laws. It is alleged that the defendants conspired to keep non-union articles, made outside of Chicago, from coming into the city. There are 100 defendants; eighteen labor leaders, forty-one employers, and forty-one firms headed by these employers. It is expected that most of the men will surrender.

STEGAL SUICIDES

R. L. J. D. Stegal, the man who shot Jack Whyte last December in this city, was found dead at 3:30 this afternoon in a lodging house. The body was discovered by a chambermaid. He had committed suicide, shooting himself through the head. This was expected as he had been brooding ever since he killed Whyte.

TONOPAH DRUG COMPANY IN A NEW LOCATION

The Tonopah Drug company, which is under the management of "Doc" Wilder, is moving across Main street to its new location in the Tonopah Club building, recently vacated by the Nevada Telegraph and Telephone company. A number of alterations and improvements were made in the interim. The Tonopah Drug company now occupies one of the most desirable business rooms in the city and is laying in a stock of the best drug and toilet articles for the trade.

WHY MILWAUKEE BECAME A FAMOUS METROPOLIS

It was Schlitz beer that came along and supplied the deficiency when Milwaukee desired to become famous, but didn't know how. This brew not only brought fame to the city, but has kept it in the limelight ever since. This is the beer that does not cause biliousness, which stimulates appetite and promotes digestion. It is the beer which is served in brown bottles and is not affected by sunlight. Schlitz beer is advertised in this issue. Read the announcement.

HAD OPIUM IN POSSESSION

Cora Whittington, a colored woman, arrested by Chief of Police Evans with a complete layout for an opium smoker in her suitcase, and who has been confined in jail for several days, will receive her preliminary hearing this afternoon at 4 o'clock before Justice Dunseath, on the charge of having opiates in her possession. This has been made a federal case.

Figures do not lie, but clothes are often padded.—Albany Evening Journal.

REFORMS AFFECTING JEWS IN RUSSIA

(By Associated Press.)
LONDON, April 28.—The Petrograd correspondent of the Jewish Chronicle states that Count Ignatieff, minister of education, has severely rebuffed anti-semitic officials, and other reforms affecting Jews have been granted in Russia. Admissions to the schools have been freed of artificial restrictions in Kiev, and provisions made for admitting Jewish students into the Yurief medical courses. The watering places in Siberia, the Caucasus and Finland will be open to Jews next summer. Anti-semitic agitation has been stopped by the governor of Wilna, and at Dnietrievsk the authorities have accepted the services of Jewish doctors.

ANOTHER APRIL SHOWER

The precipitation during the shower at noon today amounted to 12 hundredths of an inch. There was little run off, nearly all the moisture being absorbed by the soil, which is now rapidly putting forth vegetation and which was greatly refreshed by the gentle rain.
